Aberdeen Local Development Plan Review – Former Cordyce School

Site Numbers - B01/06/11/13

Dyce in Bloom and Gardening Club has taken the chance to look over the above document in relation to the above site. We are somewhat surprised to see that the site plan seems to include the area of ground to the south of the original school site which is presently occupied by the Dyce Community Orchard.

This site had been developed over the last few years to include a cross section of fruit trees and a fenced raised bed garden. Also a mixed hedge has been planted on the west side of the site. The grassed area around the trees is kept trimmed while the rest has been developed as a wild flower meadow.

Could you please confirm that this area will be removed from future plans and be left as green, as an extension of the area to the east. Otherwise we would have to object strongly to this area, which has always been considered out with the school boundary, being developed.

Kevin Mavor
Secretary
Dyce Gardening Club
