LDP MIR 2019 Consultation
Response to Local Plan seeking change to Policy NE5
Q. 2.11 Protecting and Enhancing the Natural Environment

There is a concern with regard to Supplementary Guidance - proximity of structures and infrastructure to trees - which relates to their zone of influence. The strict application of this guidance has and will have serious implications on the delivery of various sites contained within the LDP and ones which may be zoned in future. Under this guidance the height of the tree is the over-riding criteria and not the root protection area or other important factors. This cannot be correct.

Please review the Policy.
