My response to the Main Issues Report

Development Bid Reference 0944 Inchgarth Road

I support the Bid for the same reason as I support the planning application - see below.

I write to support this bid as this area is well known to me. I know that there are elderly and retired people living in large houses in the area who would dearly love to downsize to a smaller house in the same area where they would still have room for visiting family and friends. This development would meet their needs. It is well designed with transport links and facilities that would ensure a level of independence for the residents and which would also be an asset for the local community. The fields on this site spoil the area. This development actually enhances and fits with the local area. This is an excellent location for this type of development. I know of a number of people who would appreciate an alternative, proper road joining North Deeside Road and Garthdee. The existing roads are notorious for car scrapes/accidents and definitely not safe for pedestrians.
