Local Development Plan Main Issues Report 2019 Consultation

I write in support of the development bid - Inchgarth Road - B0944

This proposal including a residential-led development for the retired/elderly (including affordable housing), a nursing home and ancillary retail/community facilities, will provide much needed specialised housing in this part of Aberdeen. The additional facilities within the development, such as a pharmacy, café and doctor's surgery will provide additional facilities for existing residents in the new development, for those currently residing in Pitfodels and Inchgarth who currently have to travel elsewhere, and for the wider community. The new road is badly needed since the existing roads between the North Deeside Road and Inchgarth Road are totally unsuitable for the large number of vehicles (some far too big for the roads) that use these narrow roads. It will be of huge benefit to drivers, pedestrians and cyclists and will make an empty, ugly space into something that is of benefit to the local community and to the many, many people from over the city who use these roads and the railway line.
