Consultation Response

Question 17 â■ Natural Environment

Policy NE5: Trees and Woodland

Supplementary Guidance: Trees and Woodland

The Supplementary Guidance with regard to structures close to trees needs to be significantly amended.

The current zone of influence concept in the Supplementary Guidance is unworkable and needs to be amended.

As it stands it means that you are unable to even allocate garden ground if it sits within the zone of influence.

Currently there is a negative effect on economic development.
