Subject: B1101-land at Garthdee Road

I as a resident of Garthdee, support the community garden project for the area of land at the junction of Garthdee Road and Auchinyell road. There is very few remaining green areas around Garthdee and this would be an excellent use of this land. Over the last few years there has been 2 big developments of flats in the area, so it would be a welcome change to see an area used for wildlife and recreation.

Kind regards
Andrew Wilkie
