Subject: B1101-Land at Garthdee Road

Hello,

We are emailing as we have just discovered the green space at the junction of Auchinyell Road and Garthdee Road is to be earmarked for housing as part of the Aberdeen Local development Plan. We are horrified, there is too much housing especially student accomodation in Garthdee already. We walk our dog on that area and it would be great if that area could be planted with trees and turned into a forest. We fully support Gwen's Garden and there campaign.

We feel very strongly that the remaining green spaces in Garthdee should be preserved. We have signed the online petition and feel the Council should take into account the residents of Garthdee's wishes and leave this area so that Gwen's Garden can flourish and develop into a Community Garden and become a beauty spot which residents can use and enjoy.

Please take our views seriously and take them into account when a decsion is made.

Kind Regards

Karen and Yvonne Towns
