Subject: B1101-Land at Garthdee Road

I live at [REDACTED] and have been in Garthdee since 1993.

I am writing to support the proposal to plant trees in the piece of land opposite the new Caledon student accommodation at this site. There has been a lot of building in Garthdee over the past years and I would really appreciate if this piece of land could be planted with trees and shrubs and remain as a community green resource in what has become a very built up area.

Many thanks

Nina Ashby
