**Subject:** Local development plan response

Question 1 pg 9. R there any other sites suitable for housing? could the former Stoneywood primary school be put forward for development of housing. The site at moment is being vandalised and causing this area to look uncared for

Could the local authority prioritise development and community consultation re all old school sites finding new community purpose for these sites.

Question 4 new health facilities pg 10. Stoneywood school is suggested to be peripheral to NHS facilities and less easy to access. disagree with this statement Stoneywood school is now at heart of built up area, has good bus access. Propose Stoneywood school might be re considered for a health centre.

Question 13 pg 34 Continue to provide grant and business support to creative business's. Explore live/work studio accommodation tailored for creatives.

Question 14 pg 34 with university partners provide creative spaces and fund high profile residencies in Aberdeens theatres, libraries, art galleries and museums and museum stores based on Aberdeen's unique collections.

Question 15 pg 34 yes all developments with construction costs over a million should allocate at least 1% of construction costs for inclusion of art projects in publicly accessible visible places or places within the development. advice and support to developers re commissioning, attracting and contracting high quality professional artists and craftsman's should continue to be provided by cultural and planning teams.

Pg 35 issue 3.9. Yes to option 2.

#### 4.5 food growing

A food growing policy might be developed through the ldp, researching potential sites and communities of support. A grant scheme and website resource might provide info and support for communities and new food growing business enterprises. Could local authority release old school land and brown field sites to community food growing, supporting existing and new allotments.
