

**NORTH EAST
SCOTLAND
COLLEGE**

Inclusiveness/LAC Co-ordinator

North East Scotland College wants the journey from school through college to be successful for all students. Some students may require support to help them manage their way through college.

As part of Student Services we can:

- **Ensure that you move successfully from school to college**
- **Make sure that you are aware of the support available and know where to get it**
- **Work with you, College staff and any outside agencies to help you manage what College asks of you**
- **Work with Care Leavers, Young Carers and young people at College who have no other supports available.**

To do this we need to know that you would need this support. Please contact us as soon as possible even if you are just thinking of coming to North East Scotland College.

For more information please contact
