**What would you like to say about the issue?**

Extremely concerned about the number of well established trees being destroyed.

At the rear of our residence is a Horse chestnut and five conifer trees, nesting among these trees are many species of birds new to our area, a gold crest and a great spotted woodpecker and hosts of all garden birds. Their natural habitat would be destroyed with the felling of these trees.

**What change would you like to see made?**

Also, many of our neighbours, like myself do not go out and about alot these days and spend a great deal of our time watching the birds from our windows.

Also adjacent to our block of flats are other flats which would be able to see into our rooms if these trees were not there to block their view.

So also our privacy would be compromised.
