2.1 What do you think are the most important things that make Aberdeen a good place to live, visit and/or work?	Aberdeen has stunning scenery around it....beach, deeside, ciarngorms etc and that makes it a good place to live. However, that's about it!
2.2 What do you think should be the Council's top priorities for the next Aberdeen Local Development Plan?	Terrible road infrastructure, no real heart to the city, poor road layout through city centre, expensive public transport, over busy road junctions.
2.3 Do you have any particular aspirations for your community or Aberdeen as a whole that you think should be taken forward through the ALDP? For example, what are your views on recycling of waste, affordable housing, access to green space or ways to reduce CO2 emissions?	
2.4 What do you think should be our	Bring back people to live in Union

<p>main planning priorities for the City Centre? (For example, what should the role of Union Street be? Does the City Centre have all the uses we want, or should there be more uses there- and if so where could they go?)</p>	<p>Street. All upper stories should be converted to good affordable accommodation and then there will be a place again for small businesses to cater for the new residents. Knock down a couple of the newer buildings to let sunlight into Union street in the winter and to provide green spaces for the residents. The knock on effect is that once people are living there again, the drink culture will not be acceptable anymore.</p>
<p>2.5 What do you think should be our main planning priorities for providing infrastructure? (For example, how should new infrastructure be provided and how might it be paid for?)</p>	<p>It's a real shame the current council threw out the Unon Terrace Gardens Plan in spite of majority backing from the voters. It is exactly what the city centre needed.</p>
<p>2.6 What do you think should be our main planning priorities for transport and accessibility? (For example, how can we make it easier to travel in and around Aberdeen? Should we look at pedestrianisation in the City Centre?)</p>	<p>Cheaper buses! Need clear driving routes through the city centre. From where I live, it's a pain to get to the beach.</p>
<p>2.7 What do you think should be our main planning priorities for ensuring we have high quality buildings and places? (For example, how can we better protect our built heritage and ensure high quality and sympathetic architecture and landscape design?)</p>	
<p>2.8 What do you think should be our main planning priorities for meeting the needs of business and industry? (For example, what can be done to retain existing businesses and attract new employment opportunities to Aberdeen?)</p>	
<p>2.9 What do you think should be our main planning priorities for meeting Aberdeen's housing and community needs? (For example, how can we meet the needs of people who cannot afford mainstream housing?)</p>	
<p>2.10 What do you think should be our</p>	

<p>main planning priorities for supporting retail centres across Aberdeen? (For example, should we be safeguarding existing centres, and what are your thoughts on new out-of-town retail parks?)</p>	
<p>2.11 What do you think should be our main planning priorities for protecting and enhancing the natural environment, and preventing flooding? (For example, what areas or features should we be safeguarding?)</p>	
<p>2.12 What do you think should be our main planning priorities for ensuring that resources and waste are managed sustainably? (For example, can we make more innovative use of waste as a resource? Should we encourage renewable energy use? How could we do these things?)</p>
