

# Integrated Impact Assessment

The purpose of Aberdeen City Council is to protect the people and the place of Aberdeen from harm, enabling them to prosper and supporting them in the event of harm happening.

The purpose of an Integrated Impact Assessment is to evidence that Aberdeen City Council are making decisions in an informed way, and that the impact of decisions made is understood and accepted. The legislation that is considered within this assessment are:

- Section 2 [Equality Act 2010 protected characteristics](#)
- Section 3 [Socio-Economic](#)
- Section 4 [Human Rights](#)
- Section 5 [Children and Young People’s Rights](#)

The term ‘policy’ is used throughout this document and applies to policies, proposals, strategies, provision, criteria, functions, practice, budget savings and activities that includes delivery of our services.

## Impacts

This section demonstrates the considerations that have been made in relation to the policy - and that the impact of proposals made is understood and accepted.

## 2: Equality Act 2010 - Protected Characteristics

Aberdeen City Council wants to ensure everyone is treated fairly. This section identifies the [protected characteristics](#) that the policy potentially affects and records the impact and mitigating steps.

2.1 What impact could this policy have on any of the below groups?

| Protected Characteristic                       | What is the impact? |        |     |         |          |
|--|---------------------|--------|-----|---------|----------|
|  | Negative            |        |     | Neutral | Positive |
|  | High                | Medium | Low |         |          |
| <a href="#">Age</a>                            |                     |        | X   |         |          |
| <a href="#">Disability</a>                     |                     | X      |     |         |          |
| <a href="#">Gender Reassignment</a>            |                     |        |     | X       |          |
| <a href="#">Marriage and Civil Partnership</a> |                     |        |     | X       |          |
| <a href="#">Pregnancy and Maternity</a>        |                     |        | X   |         |          |
| <a href="#">Race</a>                           |                     |        |     | X       |          |
| <a href="#">Religion or Belief</a>             |                     |        |     | X       |          |
| <a href="#">Sex</a>                            |                     |        | X   |         |          |
| <a href="#">Sexual Orientation</a>             |                     |        |     | X       |          |

2.2 In what way will the policy impact people with these protected characteristics?

Reducing the frequency of collections may have a negative impact on those individuals who produce more waste than usual through no fault of their own – e.g. those with medical conditions, disabilities, large families, especially those with young children, and menstruating females.

It will also likely mean that bins are heavier on collection day, which may have a negative impact on anyone with reduced or limited mobility.

There is an increased risk of overflowing bins and fly-tipping, if households are unable to cope with the reduce capacity for their waste. Litter and fly-tipped material may obstruct pavements or pathways and therefore be a hazard to all but especially those with a disability.

2.3 What considerations have been made in reaching the above assessment?

### What internal or external data has been considered? What does this data tell us?

Councils that have reduced their collection frequency, have done so using a 240L residual waste bin. Household in Aberdeen are currently provided with smaller, 180L bins.

Reducing the frequency of collections may have a negative impact on those individuals who produce more waste than usual through no fault of their own – e.g. those with medical conditions, or large families.

There are mitigations such as provision of additional bins that can be made, but this does single these families out as having different characteristics from the norm.

Data reviewed for the budget consultation process suggest links to Age and Disability.

### What consultation and engagement and has been undertaken with officers and partner organisations?

Potential impact on staff. [Workforce Reduction, Restructure or Redesign\\_0.pdf \(aberdeencity.gov.uk\)](#)

**What consultation and engagement and has been undertaken with people who may be impacted by this policy (e.g. citizens, community groups, or other people/groups)?**

Aberdeen City Council launched a three-part public consultation around the 2024/25 Budget and future spending plans from July 2023 to January 2024. In part 1, which ran throughout July 2023, people were asked to award points across different service areas to indicate where they thought the council's spending priorities should be. In part 2, the public could either increase, decrease or not change the level of expenditure in areas listed. In part 3, which took place throughout January 2024, there were two face to face sessions for the public to attend and an online consultation. There were 3,179 responses to part 1, 2,564 responses to part 2 and 285 responses to part 3. Included in all parts of the consultation was a specific question regarding the provision of a Household Waste and Recycling Centres. Analysis of data suggested links to Age and Disability.

2.4 What mitigations can be put in place?

**What mitigations are there against any negative impacts (if applicable)?**

Provision of extra bins or can be made to household units that require additional facilities.

Also, an assisted uplift can be arranged for those unable to present their bin at the kerbside.

**With mitigations in place, what is the new overall rating of the negative impact(s)?**

|                         |   |
|-------------------------|---|
| High                    |   |
| Medium                  |   |
| Low                     | X |
| Negative Impact Removed |   |

### 3: Socio-Economic Impacts

This section is used to consider the impact of the policy on people who might be **unemployed, single parents**, people with lower **education** or **literacy**, **looked after children**, those with **protected characteristics** as examples.

Use this guide to understand more on socio-economic inequalities: [The Fairer Scotland Duty: Guidance for Public Bodies \(www.gov.scot\)](https://www.gov.scot/publications/fairer-scotland-duty/guidance-for-public-bodies/)

#### 3.1 What impact could this policy have on any of the below groups?

| Group   | Negative |        |     | Neutral | Positive |
|---|----------|--------|-----|---------|----------|
|   | High     | Medium | Low |         |          |
| Low income / income poverty – those who cannot afford regular bills, food, clothing payments.   |          |        |     | X       |          |
| Low and/or no wealth – those who can meet basic living costs but have no savings for unexpected spend or provision for the future   |          |        |     | X       |          |
| Material deprivation – those who cannot access basic goods and services, unable to repair/replace broken electrical goods, heat their homes or access to leisure or hobbies |          |        |     | X       |          |
| Area deprivation – consider where people live and where they work (accessibility and cost of transport)   |          |        | X   |         |          |
| Socio-economic background – social class, parents' education, employment, income.   |          |        |     | X       |          |

#### 3.2 In what way will the policy impact people in these groups?

No direct impacts identified.

However, there may be an indirect impact on those who use communal bins situated on the street. There is an increased risk of use of these bins for excess waste, reducing capacity for local residents and potentially causing them to overflow.

### 4: Human Rights Impacts

The Human Rights Act 1998 sets out the fundamental rights and freedoms that everyone in the UK is entitled to. It incorporates the rights set out in the European Convention on Human Rights (ECHR) into domestic British law. The Human Rights Act came into force in the UK in October 2000

The Act sets out our human rights in a series of ‘Articles’. Each Article deals with a different right.

Use this guide to understand more about [Human Rights](#).

## 5: Children and Young People’s Rights Impacts

The United Nations Convention has 54 articles that cover all aspects of a child’s life and set out the civil, political, economic, social and cultural rights that all children everywhere are entitled to. It also explains how adults and governments must work together to make sure all children can enjoy all their rights.

Children’s rights apply to every child/young person under the age of 18 and to adults still eligible to receive a “children’s service” (e.g. care leavers aged 18 – 25 years old).

The Conventions are also known as the “General Principles” and they help to interpret all the other articles and play a fundamental role in realising all the rights in the Convention for all children. They are:

1. Non-discrimination (Article 2)
2. Best interest of the child (Article 3)
3. Right to life survival and development (Article 6)
4. Right to be heard (Article 12)

You can [read the full UN Convention \(pdf\)](#), or [just a summary \(pdf\)](#), to find out more about the rights that are included.
