

# Integrated Impact Assessment

The purpose of Aberdeen City Council is to protect the people and the place of Aberdeen from harm, enabling them to prosper and supporting them in the event of harm happening.

The purpose of an Integrated Impact Assessment is to evidence that Aberdeen City Council are making decisions in an informed way, and that the impact of decisions made is understood and accepted. The legislation that is considered within this assessment are:

- Section 2 [Equality Act 2010 protected characteristics](#)
- Section 3 [Socio-Economic](#)
- Section 4 [Human Rights](#)
- Section 5 [Children and Young People’s Rights](#)

The term ‘policy’ is used throughout this document and applies to policies, proposals, strategies, provision, criteria, functions, practice, budget savings and activities that includes delivery of our services.

## 1. About the Policy

<b>1.1 Title</b>
Aberdeen Local Development Plan 2028 – Evidence Report
<b>1.2 What does this policy seek to achieve?</b>
An Evidence Report is the first formal stage in the review/preparation of the Local Development Plan. The Evidence Report must set out robust data in order to inform the planning authority on its approach to specific issues, and the Report will inform preparation of a ‘Proposed Plan’ to set out where development should take place. The Evidence Report needs to include a range of information including research, early engagement and technical reports on a range of topics.
<b>1.3 Is this a new or existing policy?</b>
New
<b>1.4 Is this report going to a committee?</b>
Yes
<b>1.5 Committee name and date:</b>
Council – 3 July 2024
<b>1.6 Report no and / or Budget proposal number and / or Business Case reference number:</b>
CR&E/24/187

## Impacts

This section demonstrates the considerations that have been made in relation to the policy - and that the impact of proposals made is understood and accepted.

## 2: Equality Act 2010 - Protected Characteristics

Aberdeen City Council wants to ensure everyone is treated fairly. This section identifies the [protected characteristics](#) that the policy potentially affects and records the impact and mitigating steps.

2.1 What impact could this policy have on any of the below groups?

Protected Characteristic	What is the impact?				
	Negative			Neutral	Positive
	High	Medium	Low		
<a href="#">Age</a>				X	
<a href="#">Disability</a>				X	
<a href="#">Gender Reassignment</a>				X	
<a href="#">Marriage and Civil Partnership</a>				X	
<a href="#">Pregnancy and Maternity</a>				X	
<a href="#">Race</a>				X	
<a href="#">Religion or Belief</a>				X	
<a href="#">Sex</a>				X	
<a href="#">Sexual Orientation</a>				X	

2.2 In what way will the policy impact people with these protected characteristics?

The Evidence Report is essentially a data gathering exercise which will inform future policy making. It does not set policy in itself so it's impact is neutral.

2.3 What considerations have been made in reaching the above assessment?

### What internal or external data has been considered? What does this data tell us?

There will be extensive data gathering in the production of the Evidence Report, both internally and externally.

### What consultation and engagement and has been undertaken with officers and partner organisations?

The Committee Report is seeking authority to carry out consultation, so none has been carried out at this stage.

### What consultation and engagement and has been undertaken with people who may be impacted by this policy (e.g. citizens, community groups, or other people/groups)?

The statutory requirements for engagement on the Evidence Report are set out in Sections 16B(2) and 16(4) of the Town and Country Planning (Scotland) Act. In summary, the planning authority needs to engage with:

- key agencies
- children and young people (particularly school pupils, youth councillors and youth parliament representatives)
- disabled persons
- Gypsies and Travellers

- Community Councils
- “the public at large”
- such other persons as may be prescribed.

We are likely to go beyond the statutory minimum requirements in our engagement on the Evidence Report.

2.4 What mitigations can be put in place?

What mitigations are there against any negative impacts (if applicable)?	
With mitigations in place, what is the new overall rating of the negative impact(s)?	High
	Medium
	Low
	Negative Impact Removed

### 3: Socio-Economic Impacts

This section is used to consider the impact of the policy on people who might be **unemployed, single parents**, people with lower **education** or **literacy**, **looked after children**, those with **protected characteristics** as examples.

Use this guide to understand more on socio-economic inequalities: [The Fairer Scotland Duty: Guidance for Public Bodies \(www.gov.scot\)](http://www.gov.scot)

#### 3.1 What impact could this policy have on any of the below groups?

Group	Negative			Neutral	Positive
	High	Medium	Low		
Low income / income poverty – those who cannot afford regular bills, food, clothing payments.				X	
Low and/or no wealth – those who can meet basic living costs but have no savings for unexpected spend or provision for the future				X	
Material deprivation – those who cannot access basic goods and services, unable to repair/replace broken electrical goods, heat their homes or access to leisure or hobbies				X	
Area deprivation – consider where people live and where they work (accessibility and cost of transport)				X	
Socio-economic background – social class, parents' education, employment, income.				X	

#### 3.2 In what way will the policy impact people in these groups?

The impacts of the Evidence Report itself will be neutral as is a data gathering exercise. However, the data will be used to frame policies which will be better informed as a result. These policies will likely impact positively on issues such as area deprivation, but this will be assessed when the policies are written during the Proposed Plan stage of LDP production.

#### 3.3 What considerations have been made in reaching the above assessment?

**What internal or external data has been considered? What does this data tell us?**

The above assessment is based on officer judgement on the expected impacts of the Evidence Report, taking into account that fact that it does not set new policy

**What consultation and engagement and has been undertaken with officers and partner organisations?**

Consultation will be carried out during the production of the Evidence Report.

**What consultation and engagement and has been undertaken with people who may be impacted by this policy? citizens, community groups, or other people/groups impacted by this policy?**

Consultation will be carried out during the production of the Evidence Report.

#### 3.4 What mitigations can be put in place?

**What mitigations are there against any negative impacts (if applicable)?**

<b>With mitigations in place, what is the new overall rating of the negative impact(s)?</b>	High
	Medium
	Low
	Negative Impact Removed

## 5: Children and Young People’s Rights Impacts

The United Nations Convention has 54 articles that cover all aspects of a child’s life and set out the civil, political, economic, social and cultural rights that all children everywhere are entitled to. It also explains how adults and governments must work together to make sure all children can enjoy all their rights.

Children’s rights apply to every child/young person under the age of 18 and to adults still eligible to receive a “children’s service” (e.g. care leavers aged 18 – 25 years old).

The Conventions are also known as the “General Principles” and they help to interpret all the other articles and play a fundamental role in realising all the rights in the Convention for all children. They are:

1. Non-discrimination (Article 2)
2. Best interest of the child (Article 3)
3. Right to life survival and development (Article 6)
4. Right to be heard (Article 12)
