Impacts

Aberdeen City Council has a legal requirement as a public sector organisation to assess the impact of its work on equality groups and assess against human rights, children’s rights and our socio-economic duty. This is our Public Sector Equality Duty (PSED). The PSED has three key parts:

- Eliminate unlawful discrimination, harassment, victimisation or any other prohibited conduct.
- Advance equality of opportunity.
- Foster good relations by tackling prejudice, promoting understanding.

This following five sections in the Integrated Impact Assessment demonstrate that these considerations that have been made in the policy, that the impact of proposals made is understood and accepted, and what mitigating steps can be taken to reduce any negative impact of the policy.

2: Equality Act 2010 - Protected Characteristics

Aberdeen City Council wants to ensure everyone is treated fairly. This section identifies what impact the policy may have on people with [protected characteristics](#).

This report seeks to provide clarification only in relation to the medical evidence which is likely to be acceptable to the licensing Committee in their consideration of WAV exemption requests. It is likely that this clarification will have a positive impact on those with disabilities as the requirements will now be clearer, more transparent and applied more consistently.

It is not considered that there will be any impact on those with the remaining protected characteristics because there is no change proposed which would impact on any of those groups. In particular given the demographic of taxi drivers age has been considered and assessed as having a neutral impact. This is because this clarification relates to the vehicle type only.

2.3 What considerations have been made in reaching the above assessment?

The amount of WAV exemption requests which have been made and continue to be made to the Licensing Committee and the need to provide consistency in the decision making.
