Impacts

Aberdeen City Council has a legal requirement as a public sector organisation to assess the impact of its work on equality groups and assess against human rights, children’s rights and our socio-economic duty. This is our Public Sector Equality Duty (PSED). The PSED has three key parts:

- Eliminate unlawful discrimination, harassment, victimisation or any other prohibited conduct.
- Advance equality of opportunity.
- Foster good relations by tackling prejudice, promoting understanding.

This following five sections in the Integrated Impact Assessment demonstrate that these considerations that have been made in the policy, that the impact of proposals made is understood and accepted, and what mitigating steps can be taken to reduce any negative impact of the policy.

2: Equality Act 2010 - Protected Characteristics

Aberdeen City Council wants to ensure everyone is treated fairly. This section identifies what impact the policy may have on people with [protected characteristics](#).

2.1 What impact could this policy have on any of the below groups?

Protected Characteristic	Negative			Neutral	Positive
	High	Medium	Low		
Age				X	
Disability				X	
Gender Reassignment				X	
Marriage and Civil Partnership				X	
Pregnancy and Maternity				X	
Race			X		
Religion or Belief			X		
Sex			X		
Sexual Orientation				X	

2.2 In what way will the policy impact people with these protected characteristics?

Generally reducing the funding for Small Assistance and Gala Grants will have a neutral impact on those with protected characteristics however previously funding has been given to groups who provide services to those with protected characteristics such as Aberdeen Ethnic Minority Women’s Group CIC, Aberdeen Asian Social Club etc, which would indicate that the impact may be low on those groups. These assessments are based on the non-recurring nature of the funding that is provided and also the low value that of grants/funding that can be awarded.

2.3 What considerations have been made in reaching the above assessment?

What internal or external data has been considered? What does this data tell us?
Previous applications and awards for grant funding.
What consultation and engagement has been undertaken with officers and partner organisations?
None.
What consultation and engagement has been undertaken with people who may be impacted by this policy?
Aberdeen City Council undertook a two-part public consultation around the 2025/26 Budget and future spending plans from August 2024 to November 2024.

In Part 1, conducted throughout August 2024, participants were asked to provide feedback on four key areas: Budget Options, Council Tax, Service Area Prioritisation, and Capital Programme Expenditure. Under Budget Options, respondents were queried about the potential impacts of proposed options, including both reduction strategies and income-boosting charges. Regarding Council Tax, input was sought on acceptable levels of increase and their potential impacts. Citizens were also invited to express their views on which service areas should be prioritised for spending and to offer their opinions on capital programme expenditure.

In part 2, which took place throughout November 2024, the Council consulted on additional budget options, again focusing on the impact if implemented. The phase 2 consultation included budget options relating to the Aberdeen Health and Social Care Partnership.

There were 4278 responses across the four areas consulted on during part 1 of the online consultation and 1535 responses to part 2. Respondents had the option to indicate which protected characteristics would be affected.

Various approaches were offered to support participation. Throughout both phases, opportunities were offered for the public to attend face to face and digital sessions to discuss the proposals in more detail. There were 2 face to face sessions, including British Sign Language options and 4 digital sessions, with a total of 24 attendees.

No specific references were made in the consultations to the reduction in these grants, however comment was made more generally about larger grant funding sources that are made available by the Council, where it was stated that reducing grants would have a significant impact on the wider community. Projects support many groups including those with dementia. Reducing grants would add additional demand and strain on other services, organisations (NHS, Education, 3rd Sector) and adverse knock-on costs.

2.4 What mitigations can be put in place?

What can be done to remove or reduce any negative impacts of this policy (if applicable)?

The Council could signpost to applicants, through the External Funding team, opportunities to seek grant funding from other external bodies, or other parts of the Council. This information could be put on the Council website.

With mitigations in place, what is the new overall rating of the negative impact(s)?

High	
Medium	
Low	X
Negative Impact Removed	

3: Socio-Economic Impacts
