| <b>11.</b> | <b>Community benefits</b>   |  |
|            | Community benefits can include new community facilities (such as local shops, health, education, leisure and community facilities), affordable housing, green transport links and open spaces. Include elements which you anticipate may be required as developer contributions from the development. (Please note, specific contributions will have to be negotiated with the Council on the basis of the proposal.) |  |
| 11.1       | Does the development proposal give any benefits to the community? If so what benefits does the development bring, and how would they likely be delivered?   | <b>Yes</b> / No<br>Details: Development would ensure the continued business operation of the site following the completed construction of the AWPR and AECC. Visual improvements to the site from the A96 and to the benefit of the neighbouring business FIS Chemicals. |

|            | No site is going to be perfect and the checklist above will inevitably raise some potential negative impacts from any development. Where negative impacts are identified, please provide details of their nature and extent and of any mitigation that may be undertaken. Listed below are examples of further information that may be included in your submission; |          |                |

| <b>14.</b> | <b>Development Viability</b>  |   |   |
| 14.1       | <p>Taking into account all the information provided above, and the requirements of the Aberdeen Local Development Plan 2017 and supporting Supplementary Guidance, please confirm that you have assessed the financial viability of your proposed development and found it to be viable for development in the timeframe set out above.</p> | <p>I confirm that I consider the site to be viable as per the details provided above.</p>   | * |
|            |   | <p>Please provide details of viability: The site has been in Class 6 Storage and Distribution Use (and pert livery use) for nearly 40 years. While the Planning Authority has previously refused a Certificate of Lawfulness for the site, it is hoped that the site would be formalized through an application for change of use or through formal allocation in the LDP. The particular characteristics and location of the site are extremely relevant in this case as not only has the site been in business use for a significant period of time, there is a neighbouring business FIS Chemicals which has expanded recently adjacent to the bid site. The AWPR is to the immediate east of the site but this should not be seem as a barrier which cannot be breached and where the current green belt location cannot be altered. The area and immediate neighbouring land is clearly not green belt in nature and is already in business use which should simply be formalized by an allocation in the next Plan. The Business and Industry annotation in the current LDP should extend west of the line of the bypass to include those businesses on the south and north side of the A96 including FIS Chemical and Marshall Trailers. An allocation here would support all the existing businesses nearby at Aberdeen Airport</p> |   |
